## Strategic report

The Directors of Worldpay International Group Limited ("the Company") present their Strategic report for the period from 27 July 2017 to 31 December 2018.

### Business review

The Company was incorporated on 27 July 2017 and has prepared financial statements for the period from that date to 31 December 2018. The Company forms part of the group headed by Worldpay, Inc. ("the Group" or "Worldpay").

The principal purpose of the Company is to act as an intermediate investment holding company for the Group and it does not undertake any trading activity of its own.

Consequently, the Company might expect to make a profit or loss in any given period dependent on the timing of the approval of distributions.

### KPIs

The Company monitors performance at a level defined by the principal markets in which the Group operates. As the Company itself does not trade, there are no KPIs measured on an individual company basis. A more complete understanding of the Company's performance as part of the Group can be found in the financial statements of Worldpay, Inc.

In the period ended 31 December 2018 the Company made a profit after tax of \$223.5m, had net current liabilities of \$19.0m and net assets of \$8,162.6m. The Directors are satisfied with the performance and position of the business.

### Principal risks and uncertainties

#### Risk management

The Company seeks to minimise its exposure to external financial risks and is party to the Worldpay Enterprise Risk Management Framework (ERMF) which drives the Group approach to risk management. The framework sits alongside the Strategic Plan and sets out the activities, tools and techniques used to ensure that all material risks are identified and that a consistent approach is integrated into business management and decision making across the Group.

Whilst the Board of Directors is ultimately responsible for the management and governance of risk in the Company, the Group expects every employee to be responsible for the management of risk. To facilitate this, the Company operates within Worldpay's 'three lines of defence' model which clearly identifies accountabilities and responsibilities for risk as follows:

- Business line management has primary responsibility for the management of risk;
- Risk and compliance functions assist management in developing their approach to fulfil their responsibilities and provide oversight of our first line activities; and
- The internal Audit function checks that the risk management process and the risk management and internal control framework are effective and efficient.

Below is a list of the principal risks which Worldpay have identified would indirectly affect the Company. Further details can be found in Worldpay, Inc.'s 10K document which can be found on the Company's website at [www.worldpay.com](http://www.worldpay.com)

### Principal risks

#### Industry

Potential key risk: Worldpay's acquiring business model is dependent on licences/sponsors and the continuing support from the payment schemes such as Visa and Mastercard. Any infringement by Worldpay of the scheme rules and regulations, or the inability to correctly implement mandatory changes, could result in the loss of the card scheme support. This could result in unanticipated consequences such as the loss of licences or sponsors or the inability to obtain new ones, financial penalties or reputational damage.

#### Risk appetite

Worldpay will always seek to remain current and adhere to all scheme rules unless prevented from doing so by its system infrastructure. Where this is the case, Worldpay will apply for specific waivers pending full compliance.

## **Strategic report (continued)**

### **Principal risks and uncertainties (continued)**

#### **Industry (continued)**

##### *Potential impacts*

- Failure to meet scheme requirements for products and services may lead to reputational damage and to financial penalties from the payment schemes
- As a last resort, payment schemes may revoke Worldpay's franchise licence in existing markets or not grant new licences in prospective markets
- Failure to operate scheme licences to required specifications may lead to lower acceptance rates and therefore potential reputational damage and customer impact.

#### **Legal**

Potential key risk: Worldpay fails to adhere to legal requirements leading to financial and/or reputational damage.

##### *Risk appetite*

Worldpay will comply with the spirit and letter of the laws that apply to us. In areas of uncertainty or ambiguity, Worldpay will have a robust justification and clear rationale for the choices it makes and will be prepared to defend choices made with the relevant authorities and, if necessary, publicly in the media.

##### *Potential impacts*

- Failure may result in Worldpay or its customers breaching laws, resulting in reputational damage, loss of customers and financial penalties
- Worldpay may be used to facilitate financial crime.

#### **Compliance and regulatory**

Potential key risk: Worldpay breaches regulation due to inadequate/insufficient design, resourcing or implementation of a risk-based compliance programme, resulting in regulatory fines/financial loss and reputational damage.

##### *Risk appetite*

Worldpay has no appetite to knowingly breach the spirit and letter of the laws and regulations that apply to it.

##### *Potential impacts*

- Failure may result in Worldpay or its customers breaching regulations, resulting in reputational damage, loss of customers and financial penalties
- Non-compliance may result in loss of business licence.

#### **Settlement**

Potential key risk: Failure to settle with merchants due to lack of available funds as a result of card scheme or systemic bank failure, or funds not processed correctly, resulting in financial loss (compensation) and severe reputational damage.

##### *Risk appetite*

Worldpay endeavours to settle to all customers within the agreed terms and will maintain sufficient liquidity, or have ready access to additional liquidity funding if required.

##### *Potential impacts*

- Failure or delay to customer payments
- Severe reputational damage and/or financial loss.

#### **Credit**

Potential key risk: Potential loss outside of agreed appetite arising from the failure of a merchant, card franchise, partner bank or alternative payments provider to meet its obligations in accordance with agreed terms.

##### *Risk appetite*

Worldpay budgets for credit loss on an annual basis, however its risk appetite seeks to optimise a high level of return whilst achieving appropriate risk versus reward performance in line with Worldpay's growth strategy.

## **Strategic report (continued)**

### **Principal risks and uncertainties (continued)**

#### **Credit (continued)**

##### *Potential impacts*

- Increase in credit exposure leading to increase in financial loss
- Rejection of applications leading to decrease in profitability
- Merchant fails to provide goods or services to their customers leading to an increase in chargebacks that cannot be passed on to a failed merchant, resulting in financial loss.

#### **Data security**

Potential key risk: Significant financial loss and reputational damage due to data breach of highly confidential data or technology disruption caused by internal/external attack on Worldpay or its third-party suppliers/merchants.

##### *Risk appetite*

Worldpay has no tolerance for the loss of confidentiality, integrity or availability of customer or other highly confidential information. Worldpay will comply with the spirit and letter of the laws that apply to it including all new regulations (e.g. GDPR).

##### *Potential impacts*

- The loss of confidentiality, integrity or availability of customer or other sensitive information could result in regulatory or legal sanctions and/or significant reputational damage
- Increased costs for remediation and reduced ability to deliver strategic objectives
- Additional costs by way of compensation, litigation, fines, loss of sponsorship and loss of productivity as resources are redirected to manage incidents.

#### **Technology**

Potential key risk: Inability to provide merchant services due to unforeseen technology downtime, resulting in loss of revenue and reputational damage.

##### *Risk appetite*

Worldpay is not willing to accept risks which compromise its ability to process merchant transactions.

##### *Potential impacts*

- Any disruption to the availability of Worldpay's global platform or network could result in interruption of service to customers, loss of business and revenue and significant additional costs by way of contractual damages and operating expenses
- Increased costs for remediation and reduced ability to deliver strategic objectives.

#### **Scale of change**

Potential key risk: Risk of loss of profit, opportunity, reputation or disruption to business activities as a result of its inability to manage the magnitude of change being undertaken.

##### *Risk appetite*

Worldpay has no appetite for the failure to deliver high-priority projects on time, to budget, to expected quality.

##### *Potential impacts*

- Failure to deliver high-priority projects impacting customer and/or reputation
- Disruption to normal business activities
- Development of single points of failure
- Increased attrition rates amongst colleagues.

## Strategic report (continued)

### Principal risks and uncertainties (continued)

#### Third parties

Potential key risk: Third parties fail to carry out core business activities, resulting in financial loss, regulatory impact and reputational damage.

#### Risk appetite

Worldpay is willing to accept the risk of working with third parties for core business activities, however it would never knowingly breach regulatory standards.

#### Potential impacts

- Suppliers critical to Worldpay's success are unable to meet the capability and service levels required
- Non-compliance with legal or regulatory requirements relating to supplier management
- Inconsistent and/or undesirable approach to the sourcing and management of key suppliers resulting in poor relationships and poor levels of service.

#### People

Potential key risk: Worldpay fails to sufficiently recruit, retain and develop its people leading to poor colleague engagement and the inability to create a high-performing culture.

#### Risk appetite

Worldpay seeks to create a great place to work, powered by great people. Worldpay balances the costs and risk to ensure that its employees are motivated and engaged and have the capability to deliver its strategy.

#### Potential impacts

- Colleague capability does not meet the needs of the organisation
- Poor culture leading to ineffective performance and inappropriate behaviours
- Low colleague engagement leading to increased attrition
- Unable to retain key people.

#### Competitive landscape

Potential key risk: Worldpay loses its relative competitive position.

#### Risk appetite

We have no appetite for allowing Worldpay's relative competitive position to be eroded or undermined. In this regard Worldpay will ensure that it monitors, assesses and responds appropriately to Regulatory, Technological, Competitor, Customer and Security changes.

#### Potential impacts

- New players disintermediate Worldpay
- Loss of customers because competitors innovate and develop new enhanced products
- Pricing and margin pressure.

#### UK membership of the European Union

Risks and uncertainties associated with the UK withdrawal from the European Union (Brexit) are considered in the Directors' report.

Approved and authorised for issue by the Board of Directors and signed on their behalf by:

M Heimbouch  
Director

15 March 2019

## Directors' report

The Directors of the Company present their report and the audited financial statements for the period from 27 July 2017 (date of incorporation) to 31 December 2018. The business review and principal risks and uncertainties which are required by law to be included in this report have been included instead in the Strategic report.

### Directors

The Directors and Secretary who held office during the period and to the date of signing of these financial statements were as follows:

#### *Directors*

S Ferris	(Appointed 27 July 2017)
N Greene	(Appointed 27 July 2017)
M Heimbouch	(Appointed 27 July 2017)

#### *Secretary*

N Greene	(Appointed 27 July 2017)
----------	--------------------------

### Name change

On 19 July 2018, the Company, previously known as Vantiv UK Group Limited, changed its name to Worldpay International Group Limited.

### Dividends

Dividends of \$118.2m were paid during the period ending 31 December 2018. A further dividend of \$100.0m was paid on 22 February 2019.

### Employees

The Company has no employees.

### Political contributions

The Company made no political donations during the period.

### UK membership of the European Union

The June 2016 referendum supporting the exit of the UK from the European Union ("Brexit") is causing significant political uncertainty in both the UK and the European Union. The impact of Brexit and the resulting effect on the political and economic future of the UK and the European Union is uncertain, and our business may be adversely affected in ways we do not currently anticipate. Brexit may result in a significant change in the British regulatory environment, which may likely increase our compliance costs. We may find it more difficult to conduct business in the UK and the European Union, as Brexit may result in increased restrictions on the movement of capital, goods, services and personnel. Depending on the ultimate terms of the UK's proposed withdrawal from the European Union, we may decide to relocate or otherwise alter our European operations to respond to the new business, legal, regulatory, tax and trade environments that may result.

As with any political instability or adverse political developments in or around any of the major countries in which we do business, developments related to Brexit may materially and adversely affect customers, suppliers and employees and could harm our business, results of operations and financial condition.

### Going concern

The Directors have prepared forecasts for the Group by business unit, covering a period of more than 12 months from the date of signing of these financial statements. Although the Company had net current liabilities of \$19.0m, on the basis of their assessment of the Company's financial position, the Directors have a reasonable expectation that the Company will be able to continue in operational existence for a minimum period of 12 months from the date of signing and therefore the financial statements have been prepared on the going concern basis.

### Directors' indemnities

The Company has made qualifying third party indemnity provisions for the benefit of its directors which were made during the period and remain in force at the date of this report.

## **Directors' report** *(continued)*

### **Disclosure of information to auditor**

The Directors who held office at the date of approval of this Directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware; and each Director has taken all the steps that he / she ought to have taken as a Director to make himself / herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Approved and authorised for issue by the Board of Directors and signed on their behalf by:

**M Heimbouch**  
*Director*

15 March 2019

Registered office: The Walbrook Building, 25 Walbrook, London, EC4N 8AF

## Statement of Directors' responsibilities

The Directors are responsible for preparing the Strategic report, the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 101 *Reduced Disclosure Framework*.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

# **Independent auditor's report to the members of Worldpay International Group Limited**

## **Report on the audit of the financial statements**

### **Opinion**

In our opinion the financial statements of Worldpay International Group Limited (the 'company'):

- give a true and fair view of the state of the company's affairs as at 31st December 2018 and of its profit for the period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the profit and loss account;
- the balance sheet;
- the statement of changes in equity and
- the related notes 1 to 15.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Conclusions relating to going concern**

We are required by ISAs (UK) to report in respect of the following matters where:

- the directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

### **Other information**

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

## **Independent auditor's report to the members of Worldpay International Group Limited (*continued*)**

### **Responsibilities of directors**

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditor's report.

### **Report on other legal and regulatory requirements**

#### **Opinions on other matters prescribed by the Companies Act 2006**

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

#### **Matters on which we are required to report by exception**

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

#### **Use of our report**

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

## Notes to the financial statements

### 1 Accounting policies

#### *Basis of preparation*

Worldpay International Group Limited ("the Company") is a private company limited by shares and incorporated, registered and domiciled in England & Wales.

The address of the registered office is given on page 1. The nature of the Company's operations and its principal activities are set out in the Strategic report.

These financial statements are presented in US dollars which is the Company's functional currency. All information is given to the nearest hundred thousand dollars.

These financial statements have been prepared in accordance with FRS 101 *Reduced Disclosure Framework* and under the historical cost basis.

In preparing these financial statements, the Company has applied the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but makes amendments where necessary in order to comply with the Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

- A Cash Flow Statement and related notes;
- Comparative period reconciliations for share capital, tangible fixed assets, intangible assets;
- Disclosures in respect of transactions with wholly owned subsidiaries;
- Disclosures in respect of capital management;
- The effects of new but not yet effective IFRSs; and
- Disclosures in respect of the compensation of Key Management Personnel.

The Company is exempt by virtue of s400 of the Companies Act 2006 and IAS 27 *Consolidated and Separate Financial Statements* from the requirement to prepare group financial statements. These financial statements present information about the Company as an individual undertaking and not about its group.

The Company's immediate parent company is Worldpay Cayman Holdings Limited, a company incorporated in the Cayman Islands. The ultimate parent undertaking, Worldpay, Inc. ("the Group"), includes the Company in its consolidated financial statements. The consolidated financial statements of the Group are available to the public and may be obtained from the Group's website at [www.worldpay.com](http://www.worldpay.com) or contact: Nathan Rozof, CFA, Investor Relations +1.866.254.4811, [ir@worldpay.com](mailto:ir@worldpay.com)

As the consolidated financial statements of the Group include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

- IFRS 2 *Share Based Payments* in respect of group settled share based payments;
- Certain disclosures required by IAS 36 *Impairment of Assets* in respect of the impairment of goodwill and indefinite life intangible assets; and
- Certain disclosures required by IFRS 13 *Fair Value Measurement* and the disclosures required by IFRS 7 *Financial Instrument Disclosures*.

#### *Going concern*

The Directors have prepared forecasts for the Group by business unit, covering a period of more than 12 months from the date of signing of these financial statements. Although the Company had net current liabilities of \$19.0m, on the basis of their assessment of the Company's financial position, the Directors have a reasonable expectation that the Company will be able to continue in operational existence for a minimum period of 12 months from the date of signing and therefore the financial statements have been prepared on the going concern basis.

#### *Critical accounting estimates and judgements*

The reported results of the Company for the financial period ended 31 December 2018 are sensitive to the accounting policies, assumptions and estimates that underlie the preparation of its financial statements. The judgements and assumptions involved in the Company's accounting policies that are considered by the Directors to be the most important to the portrayal of its financial condition are discussed below. The use of estimates, assumptions or models that differ from those adopted by the Company would affect its reported results.

## Notes (continued)

### 1 Accounting policies (continued)

#### *Critical accounting estimates and judgements (continued)*

##### *- Impairment of investments in subsidiaries and of intra Group debt*

Given the nature of the Company, it relies heavily on the satisfactory performance of other companies within the Group such that sufficient cash flows are returned both from its investments and from the settlement of amounts loaned. Accordingly, the Company assesses its investments in subsidiary undertakings and balances due from other Group companies for indicators of impairment at least annually.

If such indicators exist, the recoverable amount of the investment is estimated and the carrying value of the asset reduced to that level. Any impairment loss resulting from these reviews is recognised in separately disclosed items in the profit and loss account.

The Company does not consider there to be any other critical estimates.

#### *Accounting developments*

##### *Impact of new accounting standards*

The following standards are new, revised or include changes to existing standards which have been adopted by the Company in the period ended 31 December 2018.

The following standards have been endorsed with an effective date for the Company of 1 January 2018. They have not materially impacted the balance sheet or reported results for the period.

- IFRS 9 *Financial Instruments* (2009 and 2010) – replaces IAS 39 but currently only details the requirements for recognition and measurement of financial assets. The effective date for the Group is 1 January 2018.
- IFRS 15 *Revenue from Contracts with Customer* – replaces IAS 18, 'Revenues', and introduces a five step approach to revenue recognition based on performance obligations in customer contracts and Clarifications to IFRS 15 *Revenue from Contracts with Customers* - provides further clarification on a number of points including recognition of licence revenue; application of the control principle to assess whether a company is a principal or an agent; and transition options.
- Amendments to IFRS 2 *Share-based payment* – improves consistency in the measurement of cash-settled share-based payments and the classification of share-based payments settled net of tax withholdings. It also includes a modification to a share-based payment from cash-settled to equity-settled.
- Annual improvement of IFRSs: 2014- 2016 cycle.

*Key accounting policies are set out below*

#### **1.1 Foreign exchange**

Foreign currency transactions are initially recorded at the rate ruling on the date of the transaction. At the end of each reporting period, foreign currency items on the balance sheet are translated as follows:

- Non-monetary items, including equity, held at historic cost are not retranslated.
- Non-monetary items held at fair value are translated at the rate ruling on the date the fair value was determined.
- Monetary items are retranslated at the rate prevailing at the end of the reporting period.

Foreign exchange gains and losses arising from the retranslation of foreign currency transactions are recognised in the profit and loss account. Amounts arising from financing balances, whether intra-Group or external, are stated within finance costs whereas those arising from trading are included in operating profit.

#### **1.2 Taxation**

The tax expense represents the sum of the current tax and deferred tax for the period.

##### *Current tax*

The current tax charge is based on taxable profit for the period. Taxable profit differs from profit before tax as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other periods and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

## Notes (continued)

### 1.3 Investments in subsidiary undertakings

Investments in subsidiary undertakings are stated at cost less any provisions for impairment. Investments in subsidiary undertakings purchased from companies under common control are transferred across at carrying value.

The Company assesses its investments in subsidiary undertakings for indicators of impairment at least annually. If such indicators exist, the recoverable amount of the investment is estimated.

The Company recognises any impairment loss resulting from these reviews in separately disclosed items in the profit and loss account. Impairment losses may be reversed in subsequent periods, however, the revised carrying value of the investment may not exceed the carrying value had the original impairment not arisen.

### 1.4 Debtors

Debtors are initially recognised at fair value in the period to which they relate. They are held at amortised cost, less any provision for bad or doubtful debts. Provisions for bad or doubtful debts are presented net with the related receivable on the balance sheet.

### 1.5 Creditors

Creditors are recognised initially at fair value in the period to which they relate. They are subsequently held at amortised cost using the effective interest rate method. They are derecognised when payment has been made.

## 2 Employee numbers and costs

The Company has no employees.

## 3 Directors' remuneration

The Directors of the Company do not receive specific remuneration for services to this Company nor is it possible to accurately apportion the total remuneration paid to the Directors of the Group among the companies of the Group. Details of the Directors' remuneration for those Directors who are also Directors of the Group (including the highest paid Director) are disclosed in the consolidated financial statements of the Group.

The aggregate remuneration paid to Directors of the Company who served during the period was \$21.2m.

## 4 Auditor's remuneration

Auditor's remuneration has been borne by another Group company.

Amounts receivable by the Company's auditor and its associates in respect of services to the Company and its associates, other than the audit of the Company's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis in the consolidated financial statements of the Company's parent, Worldpay, Inc.

## 5 Interest payable and similar expenses

	For the period from 27 July 2017 (date of incorporation) to 31 December 2018 \$m
Interest payable to other Group companies	193.7

## Notes (continued)

### 6 Tax on profit

*Recognised in the profit and loss account*

	For the period from 27 July 2017 (date of incorporation) to 31 December 2018 \$m
--	---

Tax on profit	-
---------------	---

### *Reconciliation of effective tax rate*

	For the period from 27 July 2017 (date of incorporation) to 31 December 2018 \$m
Profit	223.5
Tax charge using the UK corporation tax rate of 19.00%	42.5
Adjustments	
Non-taxable dividend income	(79.3)
Group relief surrendered to other Group companies for nil consideration	36.8
Total tax charge for the period	-

### *Factors affecting future tax charges*

The main rate of UK corporation tax will reduce from 19% to 17% from 1 April 2020. Deferred tax on temporary differences and tax losses as at the balance sheet date is calculated at the substantively enacted rates at which the temporary differences and tax losses are expected to reverse.

### 7 Dividends

	For the period from 27 July 2017 (date of incorporation) to 31 December 2018 \$m
Interim dividend paid September 2018 on ordinary \$1 shares of \$0.00536 per share	43.2
Interim dividend paid December 2018 on ordinary \$1 shares of \$0.00931 per share	75.0
	118.2
